Biro Gabriel-Zoltan
Software developer

An independent and self-motivated student with proven and tested software development associated skills, ready to plunge deep into the cruel, unknown world.

Education

Automation & Software in System Engineering
Since October 2016 · Universitatea Politehnica Timisoara Timişoara, Romania

Full Stack Developer
Since July 2021 Udemy Internet

Work experience

Software Developer
From August 2019 to September 2020 · Continental Automotive Timişoara, Romania

- Implemented, reviewed and deployed tasks in C/C embedded
- Conducted researches on the project at hand, deploying at a later date a new patch version that made the compiling of the project code faster by 12%
- Done quality procedures on the software components in need of it

Skills

Teamwork

- I have always loved to be part of a community, but my shy nature gets the best of me sometimes

Problem solving

- Identify the bug, define the what type of bug, see if bug is part of a colony, squash the bug (or put it somewhere safe), see if the bug had friends

Computer skills

C/C embedded

- Working with C since I was 14 years old, experience adds up
- Most of my workload at Continental Automotive was in C embedded

Object Oriented Programing

Java, C++, Python

Web Development

JavaScript, JsReact, Node, Bootstrap, CSS3, HTML5,
